

ERS Peer Review Plan

Preliminary Title: On-Farm Greenhouse Gas Mitigation in U.S. Agriculture
Type of Report (ERR, EIB, EB) EIB
 Influential Scientific Information
Agency: Economic Research Service Highly Influential Scientific Assessment
USDA
Agency Contact: Kelly Maguire, kelly.b.maguire@usda.gov
Subject of Review: On-farm agricultural emissions contribute 11 percent of economywide emissions in the United States. This report details three crop management (cover cropping, nitrogen management, conservation tillage) and two livestock management practices (feed and manure management) that have the potential to reduce emissions and deliver other positive societal benefits, such as reductions in water and air pollution and increased soil health.
Purpose of Review: The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
Type of Review: Panel Review Individual Reviewers
 Alternative Process (Briefly Explain):
Timing of Review (Est.): Start: 09/28/2023 Completed: ---
Number of Reviewers: 3 or fewer 4 to 10 More than 10
Primary Disciplines/Types of Expertise Needed for Review: Economists
Reviewers selected by: Agency Designated Outside Organization
Opportunities for Public Comment? Yes No
If yes, briefly state how and when these opportunities will be provided:
