\* **Beginning in 2012**, monthly updates to this table are available in the *Vegetable and Melons Data*, providing more timely access to data. The *Vegetable and Melons Data* product now contains producer and retail price indexes, selected retail prices, and detailed U.S. export and import data. Eventually the data product will encompass (and extend) the time series data currently contained in the *Vegetables and Melons Yearbook* and in individual commodity data sets.
