 Influential Scientific Information
Agency: Economic Research Service Highly Influential Scientific Assessment
USDA

Agency Contact: Kelly Maguire, kelly.b.maguire@usda.gov

Subject of Review: U.S. agricultural policies target a wide array of policy objectives, such as providing an income safety net for agricultural producers, minimizing negative environmental impacts of agricultural production, ensuring that agricultural supply chains are equipped to provide adequate quantities of safe food to consumers, and helping address food and nutrition insecurity amongst vulnerable populations. Various tools are used to meet these policy objectives—including cost shares, direct payments, provision of credit, or access to services. This report examines the major developments in agricultural policies in calendar year 2022, focusing on policies related to production agriculture, agrofood value chains, and food and nutrition assistance

Purpose of Review: The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
